

A DAUGHTER REMEMBERS HER FATHERS WORK EFFORTS. 75 YEARS LATER

The genius that was Dr. Eric Williams. This must be seen by all citizens of Trinidad and Tobago, here and abroad and should be part of our maturing students Curriculum, in my humble opinion. **His daughter admits in her memories that her father, Dr. Eric Williams, did great things but he also made mistakes.**

<https://youtu.be/BdSTIAPQGMU>.

Born: 25th September 1911.

Died: 29th March 1981

Created Statutory Authorities Service Commission in 1996, SASC Act 24:01, Act 16 of 196.6

Section 13 of said Act dealt with the termination of Officers and here is where the abuse by the PNM, towards me at age 30 years, could have originated, **if that Section was manipulated to Retire Persons in the Public Interest, without the Principles of Natural Justice.** I was so retired in 1970. A search can be done to see all who were so retired and where they are today, if alive or can be found in the homeless community.

Like every great Leader worldwide, the good they put in place can be manipulated by others to do great harm, if and when the opportunity so arises and here is where constant vigilance by all of our citizens is the best option to stop the abusive practices which can be perpetrated by others abusing the good initiatives done by others.

Our present leaders should pay close attention to the lifestyle and convictions of humility which he so loved and practiced. Persons making their memories public should have positive things to say about how they lived.

COVID 19 Recovery Process, is an opportune time to reflect on your lifestyles and start making changes if is deemed appropriate.

I am certainly doing my share of reflection.
